At **KrowdFit** we believe if you reward the effort, the results will follow!

Encourage, Recognize & Reward Effort!

Tracking devices supported:

What is KrowdFit?

KrowdFit is a proven, patent pending wellness rewards program that focuses on rewarding the "Effort" our members make to live a healthy, active lifestyle.

There is no silver bullet, change occurs over time, steps by step which is why we built KrowdFit to reward the "EFFORT" our members make to consistently engage in healthy activities related to Sleep, Diet and Exercise. We are not rewarding the person who loses the most weight, nor are we rewarding the fittest person.

We believe if you reward the effort the results will follow!

Whether you're in shape, out of shape or somewhere in between it's never to late to join the KROWD and begin rewarding the smart, healthy choices you make in your everyday life.

KrowdFit is available to individuals, corporations, communities and health advocates and incorporates state of the art biometric tools, plus an unlimited cash rewards pool that is powered by the KROWD!
